REF: 6608

Description

Responding to Accenture's request, we created a selection of silver oil barrels, for their Global Energy Industrial Programme's annual presentations and special occasions.

Each silver oil barrel featured engraved images of the world map; the engraving executed by machine for consistent accuracy. Individual engraved inscriptions for each recipient were performed by hand for that extra sparkle.

This is an example of a bespoke commission. Please get in touch to discuss your own ideas; we can make anything in silver.
