Description

Gabriele De Vecchi and architect Corinna Morandi first designed the silver Honia lamp in 1970 and it is one of the firm's signature pieces that looks entirely contemporary in the 21st century. It was recreated to celebrate De Vecchi's 70th anniversary in 2005. Honia is a simple, upright ring, interrupted by a cut in the middle and left open. Fascination with this piece stems from the circular form that ends where it starts and is simultaneously open and closed. Was a limited edition of ten per year.
