Height: 240 mm (9.45")

Width: 340 mm (13.39")

Weight: 9660 g

Description

An impressive, lifesize and finely cast pair of silver mallard ducks. Mallard ducks are the most common and recognisable wild ducks in the Northern Hemisphere and Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand chased to produce the lifelike effect seen in the finished piece.

Dimensions give are for the drake while the duck is 400mm long and 320mm tall (15¾" x 12½")

This pair of silver mallard ducks is not available to purchase online. Please get in touch if you would like more information or are interested to buy them.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
