Height: 50 mm (1.97")

Width: 70 mm (2.76")

Weight: 90 g

Description

Mallard ducks are the most common and recognisable wild ducks in the Northern Hemisphere and this is a delightful and finely cast silver mallard duck.

Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
