Description

Superb-quality silver model of the famous WW1 British fighter plane, the Sopwith Camel. Accurate in every detail, the silversmith has taken two years to complete this superb model. The attention to detail is extraordinary: dials, gauges, machine guns and engine exemplify the fine workmanship that has gone into making this biplane model.

The Sopwith Camel was a British, First World War, single-seat biplane fighter aircraft that was introduced on The Western Front in 1917. It was developed by the Sopwith Aviation Company as a successor to the Sopwith Pup, and became one of the best known fighter aircraft of The Great War.

Dimensions of the base are 32" x 22" (813mm x 558mm).

This silver model biplane is not available to purchase online. Please contact us if you would like more information or are interested to buy it.
