Silver & enamel menu holder vase

Maker Not Recorded

Sold

REF: 7173

Height: 62 mm (2.44")

Diameter: 50 mm (1.97")

Description

Most unusual antique silver menu holder vase with engine-turned engraved body overlaid with white vitreous enamel and delicately hand painted images of a basket of blue flowers surmounted with blue ribbons.

Vitreous enamel is a decorative, glass-like coating fused on to a metallic base, historically applied on gold, silver and copper.
