William IV silver coffee pot
Barnard Brothers

Sold

REF: 1428

Height: 230 mm (9.06")

Weight: 719 g

Description

William IV silver coffee pot in a classic, straight-sided George II style that would have been popular in the mid 18th century. The silver coffee pot's base is stepped and the domed lid mirrors that stepped style. The elegant spout is faceted and decorative scrolling mounts secure a lovely carved fruitwood. Very importantly, this silver coffee pot pours beautifully.
