Description

Set of six antique silver whiskey tots created in the form of two-handled wine coolers. Numbered from one to six, these charming presented in their original presentation case. Each tot is numbered.

A tot of whiskey is an informal measure of whiskey, usually between one or two ounces, and there are lots of names for that measure. Referred to as a nip, a toot, a tot, a snifter and a wee dram, the most common name for a measure of whisky is a dram.

In the United States, it is most commonly served as a shot and is typically used to refer to a smaller portion of liquor than a jigger.
