Description

The craftsmanship in this handmade oval bowl is made to an extremely high standard. The body is beautifully hand chased with fanned, scrolled shell-and-leaf decorations forming a cartouche on either side of the bowl. These decorations are set against a mottled background and the domed base is decorated with berries and scrolling foliage. The shaped rim has an applied scroll and floral border in high relief and the handles are particularly well define and made, depicting scrolling foliage and bellflowers. The interior is gilded.

While this silver centrepiece make for a marvellous statement decoration in its own right, this two-handled decorative bowl also comes alive when decorated with flowers and fruit. And what's more, it's immensely practical as an impressive wine and Champagne cooler.

This beautiful antique silver centrepiece bowl is not available to purchase online. Please get in touch if you would like more information or are interested to buy it.
