Antique Swiss continental silver & enamel clock

Unknown Maker

£2,250

REF: 10070

Height: 60 mm (2.36")

Diameter: 55 mm (2.17")

Description

This beautiful timepiece was made in solid silver, with unusual and attractive enamel decoration. The border is modelled in green enamel as a garland of oak leaves interspersed with gilded acorns, with an empty shield at the top and a tied bow at the base. It has a pretty border of blue enamel arabesques and an attractive clock face with blue numerals, apart for the 12 which is in red.

Antique HFS (specifically referring to Universal Genève "FS" or Fab. Suisse) watches are highly collectible Swiss timepieces with distinct historical significance.
