Set six antique silver lobster picks

Goldsmiths & Silversmiths Co

Sold

REF: 3424

Width: 195 mm (7.68")

Weight: 210 g

Description

A set of six antique sterling silver lobster picks with a two-pronged fork on one end and shallow scoop on the other to extract the meat from the legs, claws and other small parts of the lobster. This set of lobster picks feature a family crest, not yet identified, on the central button.

Specialised dining equipment such as lobster cracks and picks were a nineteenth century refinement. By the Victorian period, touching food at the table was considered bad manners except in certain circumstances.
