Description

The partridge is a medium-sized, plump gamebird that flies with whirring wings and occasional glides. It is strictly a ground bird and like his female hen, is never likely to be found in a pear tree!

This heavy quality silver partridge cock is cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand-chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
