Silver capstan pepper mill

Heath & Middleton

Sold

REF: 4279

Height: 80 mm (3.15")

Diameter: 40 mm (1.57")

Description

A silver pepper mill in the capstan style with its original Peugeot mechanism which grinds the peppercorns perfectly.

A capstan is a most frequently nautical machine for moving or raising heavy weights that consists of a vertical drum which can be rotated and around which cable is turned, and it is a popular form in the design of pepper mills for more than 100 years.
