REF: 4877

Height: 250 mm (9.84")

Depth: 160 mm (6.3")

Weight: 850 g

Description

Sometimes a natural form gives a designer an optimal solution both from an aesthetic and functional point of view. That is the case with this piece designed by Gabriele De Vecchi, where he used the water droplet as his inspiration for the Chagall silver water carafe. This limited edition pitcher is wide and round in the body of the piece and narrow at the spout where the water is poured.
