Description

An unusual pair of Arts & Crafts style sterling silver water jugs with waisted bodies and scroll handles. Pairs of water jugs are unusual and this is a particularly stylish example that would complement both traditional and contemporary table settings. Each silver jug has an approximate capacity of one litre.

The Arts & Crafts movement emerged from a disenchantment with the impersonal, mechanised direction of society in the 19th century, and sought to return to a simpler, more fulfilling way of living. The movement was admired for its use of high quality materials and for its emphasis on utility in design.
